

Glutamatergic inputs

from CA3

entorhinal cortex

thalamus

PV-expressing

1. O-LM

2. bistratified

CCK-expressing

3. Schaffer collat. assoc.

4. apical dend. innervating

5. PP-associated

dense axon

6. ivy

7. neurogliaform

projecting

8. rad. retrohippoc.

9. trilaminar

10. backprojection

11. or. retrohippoc.

12. double projection

P Pyramidal cells
